In pursuit of Global Citizenship

We strive for global competence, conscience, and most of all, for the qualifications that define us as bona fide global citizens. This means that the GSIS community transcends national borders, compelling each and every one of us to lead but also to serve, and strives to strengthen our unique heritage as well as universal values. While one gains national citizenship as a birthright, global citizenship is attained through meritocracy.

Pioneering institutions across all fields have two common key ingredients: a focused mission and great people to fulfill it. As Korea’s first professional school dedicated exclusively to global affairs, Yonsei University’s Graduate School of International Studies (GSIS) has one overriding mission: to enable our graduates to become members of a “Global Corps.”

For those of you who are imbued with international genes but also want to experience Asia, Yonsei GSIS offers the best of both worlds: immersing yourself in an outstanding interdisciplinary program with hands-on exposure to Asia’s unfolding opportunities and challenges. Within a 100-minute flight from Seoul lies Beijing, Tokyo, and Shanghai—three of the most dynamic, historically significant, and culturally diverse cities in Asia.

Whether you plan on becoming an analyst on the cutting edge of risk management, negotiating trade deals, helping the poor, or fighting for human rights and human dignity, GSIS offers you exceptional education programs and cutting-edge research courses. Our distinguished faculty who are dedicated to excellence in teaching, research, and mentoring stand ready to put your ideals into practice.

Dual degree and exchange programs with leading partnership schools in Asia, the United States, and Europe also enable our students to graduate with a key competitive edge. The GSIS also draws upon a network of top schools worldwide. Yet the most important and enduring asset of the GSIS is our unique student culture, with the highest foreign student enrollment in Korea. This unique melting pot will result in life-long friendships and the ability to master contrasting prisms and paradigms. Make GSIS your next home, join the GSIS family and rediscover yourself, Asia, and the world. As you do so, we hope you will become passionate change agents, principled leaders, and architects for the 21st century.
Yonsei GSIS at the Crossroads of the World

Yonsei GSIS has given me the opportunity to traverse into new areas of learning of which I previously had limited knowledge. Having a background in communications and working in the media industry for many years, I was searching for an opportunity to expand my knowledge of international affairs, finance and economics that was taught in-depth with varied perspectives and political scope. The program has, so far, proven to help me fortify my existing foundations in developing my academic pursuits as well as fostering lifelong friendships. I recommend this program for anyone seeking similar aspirations in their career path.

Senior Consultant, KPMG Korea / Business Consulting Service - Climate change & Sustainability department

My experience at GSIS has become an important footing to build a professional career. What I appreciated the most was the variety of in-depth classes Yonsei GSIS offered, such as political economy and international law courses, which enhanced my knowledge in issues related to climate change and constructed a firm theoretical basis. Furthermore, GSIS’s strong overseas network and advanced debate culture have stood me in good stead in terms of improving my English skills and for expanding my horizon of possibilities.

Executive Director, Korea Institute for Development Strategy

A profession in International Development requires broad understanding in Economics, Social Studies, and IR, along with seasoned skills of problem solving, effective communication and negotiation. Without hesitation, my choice was Yonsei GSIS with its vast selection of interdisciplinary courses taught by the best faculty members, true international learning environment with people from a wide range of cultures, nations, religions and ethnicities, and strong base of alumni network in this field. If you are looking for intellectual challenge, lifetime mentors, and true friendship, Yonsei GSIS is the answer!

My time at Yonsei GSIS has been enriching and enlightening. Studying under professors with not only academic but also professional expertise has been rewarding, as I have gained valuable insights from their experiences in the field. However, I am also learning a lot from my fellow students as we participate in discussions, both inside and outside the classroom. Studying alongside such a diverse group of people from different cultural, linguistic, and philosophical backgrounds creates an incredibly dynamic environment in which I feel privileged to take part. Simultaneously building friendships and engaging in constructive debates and relevant discussions has enabled me to widen my perspectives and work towards becoming a better global citizen. As such, I look forward to my remaining semesters and the further opportunities and interactions I will have as a member of GSIS’s unique international community.

| Korean Studies (KSP)          | 1. Korean History, Society & Culture  
|                               | 2. Korean Politics & Economy |
| International Cooperation (PIC) | 1. International Security & Foreign Policy  
|                               | 2. International Development Cooperation  
|                               | 3. International Law & Organizations  
|                               | 4. East Asian Studies |
| International Trade, Finance & Management (ITFM) | 1. International Trade & Economic Development  
|                               | 2. Global Finance & Economy  
|                               | 3. Global Strategy & Management |
The KSP has grown into one of the premier centers for Korean studies with an emphasis on internationalizing Korean studies. The program covers the political, sociological, historical, economic, and contemporary dimensions of Korean studies while maintaining various outreach programs.

**Curriculum Structure**

1. **Core Courses:**
   All students must complete two common courses during their first semester. If all the requirements desired for the course are met, then you are eligible to waive the class.
   a) Research Design & Methods Or Statistics and Data Analysis (select ONE)
   b) Introduction to International Economics Or International Relations (select ONE)

2. **KSP required courses**
   - Korean Society & Culture
   - Korean Culture: Contemporary Issues and Trends

3. **Fields of Concentration**
   Students are required to choose 4 courses from one chosen field of concentration. The fields are as follows:

   01 Korean History, Society & Culture
   02 Korean Politics & Economy

4. **Korean Language Requirement:**
   International students in KSP are required to complete Level 4 of the course “Korean Language and Communication” or pass the Korean Language Examination (TOPIK).

**Course List**

The following courses, listed by field, are offered.

**Korean History, Society & Culture**
- Confucianism, Identity & Order in Korean History
- Cultural History of Korean Modernity
- Seminar in Modern Korean History
- Gender & Society
- History of the Korean Culture and Media Industry
- Korean Wave and Media
- East Asian Cinema
- North Korean History
- Social Movements and Civil Society
- The History of Popular Culture in Korea
- Traditional Korean History
- Gender and Sexuality in Korean Film and Literature
- Understanding Popular Music and Korean Society

**Korean Politics and Economy**
- Korean Economy and Business
- Korean Politics and Democratization
- North Korean Politics and Society
- Economic Institution and Policy in Korea
- Political Economy of Korean Development

**The Ph.D. Program in Korean Studies**

The Ph.D. program in Korean Studies is designed to address the diverse professional and academic objectives of today’s students. This program offers an interdisciplinary curriculum combining history, sociology, political science, and economics. Admission to the program is competitive and limited to candidates with an M.A. degree in the humanities or social sciences.

The curriculum encompasses the two fields of the Korean Studies Program: 1) Korean History, Society & Culture, 2) Korean Politics & Economy. To fulfill all requirements for a Ph.D., a student must complete all course requirements (48 credit units) that include program required courses, and complete both fields listed above. GSIS students with an M.A. degree and students with an equivalent educational background can have their credits transferred, up to a maximum of 24 credits, and can have required courses waived with permission.
Program in International Cooperation (PIC)

The PIC trains future leaders with a focused but also increasingly diverse exposure to major trends and issues in international affairs, global security, international crises, the world economy, and non-traditional security challenges such as global warming.

Curriculum Structure

1. Core Courses:
   - All students must complete three common courses during their first semester. (If you completed the equivalent class previously, you are eligible to waive the class after the permission of program chair.)
   - Research Design & Methods Or Statistics and Data Analysis (select ONE)
   - Introduction to International Economics
   - International Relations

2. Fields of Concentration
   - Students are required to choose 4 courses from one chosen field of concentration.
   - The fields are as follows:

<table>
<thead>
<tr>
<th>01</th>
<th>02</th>
<th>03</th>
<th>04</th>
</tr>
</thead>
<tbody>
<tr>
<td>International Security &amp; Foreign Policy</td>
<td>International Development Cooperation</td>
<td>International Law &amp; Organization</td>
<td>East Asian Studies</td>
</tr>
</tbody>
</table>

Course List

The following courses, listed by field, are offered.

**International Security & Foreign Policy**
- American Foreign Policy since 1945
- Asia’s Rise and the Rest of the World
- US-China Relations
- Crisis Management
- Seminar on Global Security
- Intelligence and National Security
- International Relations in East Asia
- International Conflict and Its Resolution
- Nuclear Issues in Global Affairs
- Seminar on International News Analysis
- Small States in International Relations
- Seminar on Theories of International Relations

**International Development Cooperation**
- Culture and Development
- Culture and Globalization
- East Asian Political Economy and Development
- NGOs and Development
- Sustainable Development and Environment Policy
- Sustainable Development and Energy Policy

**International Law & Organization**
- Humanitarian Aid in International Politics
- International Law
- International Environmental Law
- Race, Gender and Global Migration
- Human Rights and Development
- Culture, Institution and Development Policy
- Seminar on Global Political Economy
- UI and International Organizations

East Asian Studies
- China and the Korean Peninsula
- Modern China’s Rise
- Contemporary Social Dynamics in East Asia
- Contemporary Issues in East Asia
- Seminar in Japanese Economy
- Japanese Politics and Foreign Policy
- Modern Korea-Japanese Relations
- Trade and Finance of Japan
- Political Economy of Japan
- Management and Investment in China

The Ph.D. Program in International Studies (International Relations)

The Ph.D. program is intended for scholars and professionals with interests in either academic or policy-making careers requiring advanced knowledge of diverse disciplines including political science, economics and public policy. It is suitable for a select number of students with career aspirations in research, teaching, and public policy. Alongside political science, economics, and public policy, Ph.D. candidates must demonstrate proficiency in analytical and empirical methods, foreign language, and a chosen field of concentration. Admission to the program requires an M.A. degree from a recognized graduate program.

To complete all Ph.D. requirements, students must fulfill the 48-credit unit course requirements, including program-required courses and selecting two fields from the aforementioned options. GSIS students with an M.A. degree and students with an equivalent educational background can have their credits transferred up to a maximum of 24 credits, and can have required courses waived with permission.
The International Trade, Finance, and Management Program (ITFM) offers an innovative and specialized curriculum to train future leaders to fulfill diverse professional and academic needs in the areas of international trade, finance, and management.

Curriculum Structure
1. Core Courses:
   All students must complete three common courses during their first semester. If all the requirements desired for the course are met, then you are eligible to waive the class.
   - Research Design & Methods Or Statistics and Data Analysis (select ONE)
   - Introduction to International Economics
   - International Relations

2. Fields of Concentration
   Students are required to choose 4 courses from one chosen field of concentration. The fields are as follows:

- Comparative Corporate Law and Governance
- Competition and Industry Analysis
- Seminar in Strategic Management
- Global IT Management
- Global Organization & Leadership
- Digital Business and Standardization
- Strategic Management & Global Competition Economics of Cultural Industries

The Ph.D. program in International Studies (International Political Economy)
The Ph.D. program is designed to address the diverse professional and academic objectives of exceptional candidates interested in pursuing in-depth research into aspects of international political economy. The Ph.D. program offers an interdisciplinary curriculum combining political science, economics, finance, and trade. Admission to the program is limited to candidates with advanced knowledge in one of these disciplines and an M.A. degree.

Candidates must complete a total of 48 credit units including required courses and at least five elective courses from two selected fields in the ITFM Program. For successful completion, Ph.D. candidates are required to pass a comprehensive examination, after which the candidate must complete a doctoral dissertation that provides a significant contribution to the scholarship of international management. GSIS students with an M.A. degree and students with an equivalent educational background can have their credits transferred up to a maximum of 24 credits, and can have required courses waived with permission.

The Ph.D. Program in Strategy and Organization
The Ph.D. program is designed for students interested in pursuing an in-depth study of international management with an interdisciplinary curriculum combining economics and management including finance, accounting, marketing, and strategy. Admission to the program is limited to those who have advanced knowledge in related disciplines. The research program and coursework especially emphasize the synthesis of rigorous theories and their practical applications with an objective to help students achieve diverse professional and academic objectives in their own future careers.

Candidates must complete a total of 48 credit units including required courses and at least five elective courses from two selected fields in the ITFM Program. For successful completion, Ph.D. candidates are required to pass a comprehensive examination, after which the candidate must complete a doctoral dissertation that provides a significant contribution to the scholarship of international management. Those with a Master’s degree from the GSIS or equivalent institutions can apply for a credit transfer for the coursework requirement of up to 24 credit units to be exempted, and can have required courses waived with permission.
The GCC Program offers an interdisciplinary and practical curriculum that is mainly conducted in Chinese (Courses instructed in Korean and English are offered as elective courses). This program aims to provide students with the analytic tools to deal with international issues in multifaceted areas. What’s more, the program aims to raise the students’ awareness of the importance of being a global citizen.

**Curriculum Structure**

1. **Core Courses**
   All students must complete the following four core courses during their first semester to be eligible to apply for the scholarship.
   - Introduction to Global Citizenship & Cooperation
   - Global Systemic Architecture
   - Global Economic Structure
   - Understanding Korean Society

2. **GCC required courses** (Students who possess valid Topik 5 or above are eligible to waive the Korean Language courses, but are required to take 2 courses from Korean-medium courses to make up the required credits)
   - Agenda for Global Citizenship & Cooperation
   - Emerging Issues in Global Politics
   - Understanding Global Business Strategy
   - Cultural Diversity in Global Society
   - Korean Language 1-4 (Students must complete at least 6 credits of Korean Language classes or submit a Korean transcript (or proficiency report).

---

**Course List**

The following courses are offered as electives in GCC Program.
- Issues and Cooperation in Korea-PRC relations
- Key Theories of International Relations
- Seminar on China & World
- Theory and Practice of ROK-PRC Economic and Trade Relations
- Cross-strait relations and East Asian Security
- Korean Entrepreneurship and Economic Development
- Comparative Study on Korean and Chinese Culture
- Korean Wave(Hallyu) and Popular Culture Exchange

*The course list is for reference only and may be subject to change in the future.*
The GCSD Program provides multilingual curriculum, mainly in Korean, but also in English, Chinese and Japanese. It offers courses on (1) sustainable development & ESG, (2) humanity in global policy, and (3) Korean Peninsula & East Asian cooperation.

**Curriculum Structure**

1. **Core Courses:**
   All students must complete the following three core courses during their first semester to be eligible to apply for the scholarships.
   - 글로벌시민협력개론(Introduction to Global Citizenship and Cooperation)
   - 국제관계론(International Relations)
   - 지속가능발전개론(Introduction to Sustainable Development)

2. **GCSD required courses**
   All students are required to take the following 6 courses within their four semesters.
   - 春学期
     - 민주시민의식(Democracy and Global Citizenship)
     - 글로벌이슈세미나(Seminar on global issues)
     - 지속가능발전과 시민개발(Sustainable Development and Civic Development)
   - 秋学期
     - 동아시아 시민운동과 민족주의(Civic Movements and Nationalisms in East Asia)
     - 한반도 평화의 국제정치(International Relations of Peace on the Korean Peninsula)
     - 기후변화와 지속가능발전(Climate Change and Sustainable Development)

*The course list is for reference only and may be subject to change.*

**Course List**
The following courses are offered as electives in GCSD Program.

**Spring Semester**
- 지속가능방지와 민주주의(Global Justice and Democracy)
- 주변국의 한반도 정책과 출입국로(Asia's Policy and Access to Korea)
- 국제 개발 협력의 이해(Understanding International Development Cooperation)
- 시민협력 현장 실습(Practicum)
- 질적 연구방법론(Research Methodology II: Qualitative Methods)
- 디지털통상세미나(Seminar on Digital Trade)
- 동아시아 문화교류(Cultural Interaction in East Asia)
- The Korean Peninsula and East Asia

**Fall Semester**
- 비정부기구와 세계시민(NGOs and Cosmopolitan Citizenship)
- 동아시아 영토분쟁과 한국의 대응(East Asian Territorial Disputes and Korea's Response)
- 개발협력사업의 관리와 평가(Management and Evaluation of Development Cooperation Project)
- 시민협력 현장 실습(Practicum)
- 공적연구방법론(Research Methodology I: Quantitative Methods)
- 디지털통상세미나(Seminar on Digital Trade)
- 국제기구론(International Organization)
- 日本の市民社会(Civil Society in Japan)

*The course list is for reference only and may be subject to change.*
Dual Degrees and Exchange Programs

As part of the GSIS Program, students can either participate in GSIS’s exclusive dual degree programs or Yonsei University’s extensive exchange programs with more than 670 partner institutions.

Dual Degrees

Graduate School of Media and Governance, Keio University, Japan

The Graduate School of Media and Governance offers eight different programs that include four English-based and four Japanese-based programs. The students are expected to learn new methodologies, pursue specialized research, and gain expertise by joining one of the eight programs.

- English-based programs: Human Security and Communication (HSC), Environmental Design and Governance (EDG), Cyber Informatics (CI), Systems Biology (SB)

Harris Graduate School of Public Policy Studies, University of Chicago, USA

The Harris School of Public Policy is the public policy school of the University of Chicago. The school is consistently ranked in the top five policy analysis schools in the United States. Furthermore, the Harris School is known for its curricular interactions with the University-at-large, with students drawing upon the offerings of the Booth School of Business, Law School, School of Social Service Administration, and the Graduate Division of the Social Sciences. Comprised of a core curriculum and electives in a variety of areas of focus, the one-year Master of Arts in Public Policy (MA) program is a professional degree program designed for students who wish to gain thorough training in public policy skills and issues. In addition to policy studies and policy analysis, the program requires students to pursue training in economics and statistics through core course requirements.

Leiden University, Netherlands

Founded in 1575, Leiden University is the oldest university in the Netherlands. The University is consistently ranked among Europe’s leading universities, and has an excellent international reputation as a multidisciplinary, research intensive university with a global orientation. The university’s campuses in Leiden and the Hague offer a wealth of social, academic, and housing options for students. The Asian Studies program provides intensive and comprehensive training covering the wide range of present-day area studies research. The structure of the program allows students from a wide range of undergraduate backgrounds to have a considerable degree of freedom and individual specialization of their studies by country, region, discipline, or field.

University of Glasgow

The University of Glasgow is one of Europe’s leading institutions with a global reach. We are a member of the prestigious Russell Group of leading UK research universities, and we’re striving to change lives and society. Research led by our experts is so prized, but our students also benefit from opportunities to study abroad, improve their employability, take part in work placements and explore a wide range of social activities. As a result, we welcome scholars from more than 100 countries around the world every year. The 2010 International Student Barometer ranks us 3rd in the UK, and 90% of our final year undergraduates report satisfaction with their experiences. Our students graduate equipped with the skills they need to compete in a global workplace, and with friendships and networks that last a lifetime.

admissions and general information
Admissions

YONSEI GSIS encourages students to apply now. About 500 students from around the world take advantage of our innovative program.

All candidates must be graduates of a bachelor’s (or equivalent) degree program from a recognized college or university, either in Korea or abroad. Admission is based on a highly selective process. Key emphasis is placed on undergraduate GPA, the statement of purpose, letters of recommendation, work experience, and an interview.

Korean and overseas Korean students are advised to refer to the website of Yonsei GSIS at http://gsis.yonsei.ac.kr.

Scholarship Programs

Incoming Students Award
A. Qualification:
    Newly admitted international students
B. Types:
    Full, half or 1/3 of tuition for the first semester
C. How to apply:
    All students applying for GSIS will automatically be considered as scholarship candidates. Scholarship recipients are selected from admitted applicants according to their academic credentials. A scholarship offer will be enclosed in the admission packet and sent to the recipients individually.

Need-based Scholarship
A. Qualification:
    Currently-enrolled GSIS students
B. Types:
    Half or one-third tuition per semester
C. How to apply:
    Need-based scholarship will be announced at the end of each semester for students in need of financial aid. Applicants must submit an application form and required documents, which will be reviewed by the scholarship committee.

Merit-based Scholarship
A. Qualification:
    Currently-enrolled GSIS students
B. Types:
    Full or half-tuition per semester
C. How to apply:
    Students with a high GPA every semester will automatically be candidates for a merit-based scholarship in the following semester. GSIS Office will determine the final beneficiary according to GPA of all students.

Other Scholarship Opportunities
There are various scholarship programs at GSIS for Korean and non-Korean students. For example, in the Work-Study Scholarship Program, there are research and teaching assistantships and office assistantships available. Internship scholarships and student activity scholarships are also available. International students may be eligible for the Global Korea Scholarship, the Posco-Asia Fellowship, and others. When such opportunities arise, the GSIS office will announce them to all eligible GSIS students.
Career Development Center (CDC)

The career process is a journey of self-discovery. The GSIS Career Development Center (CDC) fosters active and open-minded collaboration with students during the process. This supportive environment, GSIS students learn to identify their goals and interests, to manage a complex process, and to make sound and informed decisions about internships and full-time jobs.

Under Senior Advisor Namuh Rhee’s supervision, the CDC will help you focus and apply your initiative and energy to take ownership of your career and professional development.

Namuh Rhee is the Senior Advisor at Yonsei GSIS. He was Managing Director and Head of Asia Account Management at Nomura International in Hong Kong. Before joining Nomura, he was Managing Director and Co-Head of Merrill Lynch in Korea. Prior to that, he was the President and CEO of Rhee Capital in Singapore. He was one of the first Koreans to establish a hedge fund for international investors. Over a 29-year span with investment banks and brokerage firms including JP Morgan and Samsung Securities, he became known for his innovative work in equity analysis and investment strategy. He has served on the boards of several major corporations and financial institutions including Citibank Korea, Korea Investment Management, and Mando China Holdings. He received his BA from Seoul National University, his MBA from the University of Chicago Graduate School of Business.

Non-Profit Organizations and Academia

Office of Development and Alumni Relations (ODAR)

Yonsei GSIS Alumni Association

Since its establishment in 1987, the Yonsei GSIS has produced almost 3,000 graduates, necessitating the creation of a new Alumni Association. The Alumni Association will work to connect current and former students with each other, both for social and professional benefit. The Office of Development and Alumni Relations (ODAR) will support the program to keep alumni engaged and up to date on current GSIS work. Encouraging GSIS alumni to be an active part of the school community is a priority, and one that will assist both current students and graduates. The president is Mr. Hong Ji Man, a former member of the National Assembly, and the vice president is Ms. Seo Eun Kyung, a journalist at Bloomberg. In addition to them, the Alumni Association is comprised of members from various class years.

Alumni Chapters

Part of this effort has been the establishment of local Yonsei GSIS alumni chapters located in international hubs such as Shanghai (the flagship chapter), New York, Tokyo, Taipei, Chicago, Hong Kong, Barcelona, and Singapore. Each local club will bring their specialty to the fore when planning their events and helping our current GSIS students. For example, students interested in finance can consult chapters in Hong Kong and Singapore, while those with a bent for International Relations can get in touch with the Washington DC chapter.

As the number of GSIS graduates continues to grow and settle in major international hubs, we hope local alumni clubs continue to proliferate and offer opportunities for generations of GSIS students.

Meeting Alumni through interviews

To put a face on the opportunities awaiting Yonsei GSIS graduates, the ODAR office interviews prominent local and international alumni and makes the transcripts available online for current GSIS students and Alumni.

Niklas Hassenpflug ’19, Senior Consultant at Deloitte Germany in the Frankfurt

I work at Deloitte, in a quite dynamic work environment with a focus on using modern data analytics tools to process transaction-relevant data and connect it to gain valuable deal insights for the clients. Connecting finance knowledge with data analytics is a challenging but interesting task. My team is first of all very international with a variety of cultural backgrounds and languages. The diverse student body of Yonsei GSIS helped me to adapt to this environment and know how to deal with people from so many countries. Of course, the school helped me with the knowledge I needed especially in Finance. The Risk Management or Financial Accounting and Corporate Finance classes, for example, give you solid knowledge and a foundation for entering a job. Therefore, I think Yonsei assists you on a personal and academic level for life after graduation. Looking back I can say it was a good decision to study at Yonsei, for my personal and also academic development. It was definitely a good decision to study at Yonsei, for my personal and also academic development.

Toby Tse 20’, Enterprise Portfolio Support, Bloomberg LP (London)

I chose to study at Yonsei GSIS because I was interested in Korean culture and GSIS gave me a chance to develop those interests and to connect with the global community. I had the opportunity to explore different concentrations that allowed me to develop my interests in alternative finance. During my time at Yonsei, I was able to improve my communication and presentation abilities. These skills and experiences helped me prepare for my job. The most memorable experience was being part of the USA for 3 semesters and spending time organizing various activities with other members. I also made a lot of good friends in school whom I still keep in touch with even though we are apart.

Sihyun Celeste Park ’20, Researcher at the Division of Political Affairs in the Consulate General of the Republic of Korea in San Francisco

I work as a Researcher at the Division of Political Affairs in the Consulate General of the Republic of Korea in San Francisco. My work entails gaining knowledge in diverse fields including international affairs, finance, climate change, technology, art, culture, and building policy recommendations. Studying at Yonsei GSIS has not only prepared me well for this job, but it also has brought me an internship opportunity at an international organization, a dual degree opportunity at a prestigious university abroad, a useful network, and precious friendships. I joined Yonsei GSIS with specific goals I wanted to achieve, and Yonsei GSIS has given me the support I needed.

What I think is the most important is to know what you exactly want to do; to have your purpose and goals in life. Once you have them, your path will be made straight in front of you.
Where Yonsei GSIS Graduates Work

Presently, Yonsei GSIS alumni can be found working abroad in a range of institutions around the globe, ranging from leading international and governmental bodies, and NGOs, to multinational companies, investment banking, and consulting firms. ODAR is currently working to establish a worldwide alumni network, recognizing the importance of alumni as one of the most valuable assets graduates can have for job search, business, and social contacts.

1. International Organizations / Foreign Governments

2. Domestic Government Organizations

3. Public Sector Organizations

4. Banking / Finance / Investment

5. Domestic Corporations
Amore Pacific, CJ Group, Coupang, Hanwha Group, Hyundai Group, Kia, Kim & Chang Law Firm, Mybo Life, LG Group, Lotte Corporation, Naver Corporation, Samsung Corporation, Shinsegae Group, SK Corporation

6. Accounting / Consulting
A.T. Kearney, Accenture, Bain & Company, Deloitte & Touche, Ernst & Young, KPMG, McKinsey, PriceWaterhouse Coopers, Samil Accounting

7. International Corporations

8. Academia
Brussels School of Governance, Center for Security Studies, Georgetown Journal of International Law, Georgia State University, Hankuk University, Hanyang University, Hongik University, Indiana University, James Madison University, Korea University, Lafayette College, Seoul Paulukwan University, The George Washington University, Troy University, University of Glasgow, Yonsei University

Yonsei GSIS — Office of Development and Alumni Relations (ODAR)
1. Institute of Modern Korean Studies (IMKS)
With a generous endowment from the Samsung Group, the Institute of Modern Korean Studies (IMKS) was established in 1997. As the only research center of its kind in Korea using both English and Korean as its primary languages, the principal objective of the IMKS is to organize, direct, and support research in areas such as modern Korean political history, Korean entrepreneurship, Protestant missionary work in Korea, Korean-American relations, and modern Korean student activism.

The IMKS strives to enhance and improve the overall quality of scholarly research in the field of modern Korean Studies by encouraging the development of innovative perspectives and insight into modern Korean history, culture, and society, and by promoting active exchange between Korean studies specialists at home and abroad.

2. Center for International Studies (CIS)
The Center for International Studies (CIS) was founded in March 1997 as a research wing of Yonsei GSIS. CIS supports research activities that are theory-generating and policy-relevant. The Center also encourages research projects that can be used for course materials for academic programs. Yonsei GSIS prepares students for careers in the fields of international trade and finance, security and development cooperation, international organizations and law, and area studies.

The strength of the CIS lies in its ability to conduct interdisciplinary research. Factors affecting international relations are so diverse and multi-dimensional that no single academic discipline is able to produce satisfactory explanations. Taking the inter-disciplinary perspective as an essential feature of international studies, the Center seeks to become a leading center of research on international affairs.
**Student Activities**

**THE GRADUATE STUDENT ASSOCIATION (GSA)**
The Graduate Student Association is an independent, student-organized, and student-run organization. Membership is open to all students at Yonsei GSIS. The purpose of the GSA is to represent and give voice to all the GSIS students on campus. The GSA aims for more effective participation of the students in all aspects of student life. The GSA is based on the principle that GSIS students should be informed about, and take part in, all decisions which affect them. To accomplish these goals, the GSA helps keep graduate students informed of what is happening at Yonsei GSIS. At the same time, the GSA serves as a forum in which the issues that affect students can be discussed. When key issues and areas for improvement are identified, the GSA serves as a representative and advocate for the point of view of the graduate students to the administration, faculty, and other segments of the university community.

NOVAsia
NOVAsia is the pioneering student-run news magazine of Yonsei GSIS which accentuates regional perspectives but with a definite global twist. NOVAsia stems from nova, which is the Latin word for “new,” and Asia or “New Asia.” NOVAsia is not a traditional newsletter. Rather, it is a sounding board for contrasting and even contending voices even as it highlights the schools achievements. The ultimate goal of NOVAsia is to make the magazine appeal not only to students, alumni, and future applicants but also to general readers worldwide. Over time, the editors of NOVAsia believe that the magazine will become synonymous with groundbreaking discourses on a range of issues pertinent to the future of Asia and the broader global village.

To learn more about NOVAsia, please visit the website: http://novasiagsis.com

**THE YONSEI JOURNAL OF INTERNATIONAL STUDIES**
The Yonsei Journal of International Studies (YJIS), which was formerly known as Papers, Essays and Reviews (PEAR), is an academic journal managed by students at the Graduate School of International Studies. YJIS is the first scholarly journal to be peer reviewed and published by graduate students in English in Korea. The journal is geared primarily for graduate students in Korea and around the globe, but it is also open to junior academics. Each issue seeks to cover a wide-range of issues in the field of international studies, though some issues are specifically tailored to a specific theme. There are four sections in total. The journal publishes papers, essays, book reviews and interviews. The papers section is for longer pieces that adhere to academic methodology and provide a unique contribution to the literature; the essays section is for short articles that are more argumentative in style and more editorial in prose; and the reviews section provides a space for critiques of popular publications, usually a recently published book. Starting with the Fall 2010 issue, the YJIS staff has also been conducting interviews with leading scholars to get their unique insight on important issues.

To learn more about YJIS, please visit the website: http://theyonseijournal.com

**THE YONSEI GSIS NEWSLETTER**
The Yonsei GSIS Newsletter is a dynamic monthly publication curated by students and faculty members. Explore its articles to find engaging interviews, academic insights, achievements, and suggestions for exciting places to visit in Seoul. It serves as a bridge that connects you to the heart of our Yonsei GSIS community, with informative news and captivating stories about past and upcoming events. The newsletter not only keeps you well-informed but also fosters a sense of connection within our community.
Yonsei GSIS has assembled one of the finest international studies faculties in Asia. Most of the faculty have extensive teaching and research experience at leading global institutions. The GSIS faculty members are international leaders in scholarship, teaching, research, and public policy.

Epilogue

The Yonsei GSIS experience depends critically on the contributions and aspirations of our key stakeholders and most importantly, on how our students choose to exit the GSIS. We believe that the true barometer of our success—whether we can fulfill our mission—really begins when our students become alumni. That is when our mission commences. That is when the GSIS experience begins to flourish.

The information contained in this brochure is subject to change. For the most current information, please visit http://gsis.yonsei.ac.kr
