# COURSE REGISTRATION

## 4. Korean Language Courses

- For Level 2 and above, there will be a placement exam on the first day of class, so determine your approximate level individually and register for that one.
- Classes are two times a week, so there will be two days on the schedule.

## 5. If the class is full:

- We highly suggest that you attend the first day of class and bring the Professor's Approval Registration Form to get the professor's signature. You must submit this form during the add/drop period to the GSIS office. Please note that some professors may not accept additional students. You only need one copy of the form for all courses that you wish to add.
- You can download this form here:

## 6. If the class is full (cont.):

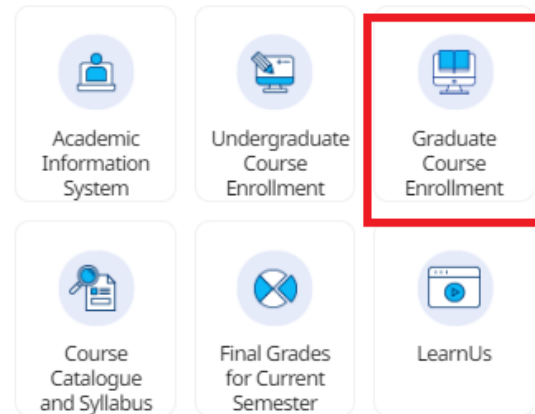

- You will have another chance to change the courses of your choice during add/drop period. During add/drop period, many changes happen, so you will see some classes suddenly have seats open up (which means that other students changed their minds and dropped the course), so we suggest that you shop for classes again during this period.
